

John Lennon Airport
Liverpool

Description

Due to the ever growing popularity and continual growth of the budget airline sector, Liverpool John Lennon Airport has grown into one of the busiest transport hubs in the North West.

Nationwide Interiors were commissioned by contractors Lend Lease to provide a substantial works. This involved the supply and installation of metal stud partitions, dry-lining, suspended ceilings, laminated wall linings and duct panels in the toilet areas, WC cubicles and vanity units with associated mirrors, sanitary ware and FF&E.

We were also engaged to supply and install class O laminate wall panels, ceramic tiling and soft flooring, glazed entrance doors, column casings and timber internal windows.
