

Project: 2 No. New Gypsy/Travellers Site's

Client: Mansell-Balfour / Role: Joinery Fit-Out

Balfour Beatty

Value: £135'000.00

Mansell

Mansell Build / Balfour Beatty were the Main Contractors appointed to build 2 No. highly controversial new Gypsy/Travellers sites at Winsford and Ellesmere Port and they in turn awarded the Joinery 'Fit-Out' to Nationwide Interiors.

Planning permission was eventually granted after a prolonged protest from a number of residents within the vicinity of both projects for 18 pitches with utility blocks and a warden's office at Barlow Drive, Winsford and at the Rossfield Road, Ellesmere Port site ... planning approval was granted for 12 pitches with utility blocks and a warden's office.

The scheme not only consisted of our standard Joinery undertakings such as Timber Doors and Frames, Ironmongery sets, Architraves and Window boards etc., ... but also a number of Kitchens to the 2 No. 'Warden Lodges' and Shower Cubicles and other elements associated with the stand alone Utility/Toilet Blocks.

As seems to be more prevalent over the past couple of years, Nationwide again diversify into an unusual sector, and again we are proud to announce we have a highly satisfied Client who is already speaking about us looking at a number of other similar settlements for them around the country.
